

Moba Certified Parts

The right parts, at the right time, in the right place.

It is crucial to maintain equipment to the highest standards. You can count on Moba Certified Parts to keep your equipment running to its maximum efficiency.

Our Moba, Diamond and Pelbo brand parts have been designed, manufactured, and tested to meet the highest quality standards. This means that materials, dimensions, functions and inspection norms are held to very strict standards.

Non-certified parts may closely resemble the originals, but do not have the same quality. Quality is not necessarily visible to the naked eye. Just because it "looks the same", it doesn't mean that it matches the performance of a Moba Certified Part.

- Reliable delivery, quality, and guarantee.
- Full alignment with our 24/7 service model
- Latest updates and developments always embedded.
- Competitive pricing.
- Large Inventory with thousands of Moba Certified Parts.
- Same day shipping on in-stock parts.
- Parts specials.
- Knowledgeable customer service staff.

MOBA

SERVICES WORLDWIDE

Reliability at heart

In a world of increasing speed, demands and expectations, it is of vital importance to be available for our customers around the clock. The Moba Group Service and After Sales organization consists of professionals who are dedicated to support our worldwide customers at all times. Our Service and After Sales organization offers field service support, 24/7 helpdesk support, customer care and certified spare parts availability close to where our customers are located. We strongly believe in a personal and people oriented approach towards our customers, resulting in being reliable at heart.

Mark van der Wolf
 Director Service & Projects Moba Group

Training

You operate the best equipment, so get the best training in the industry to optimize your efficiency.

Good equipment operators move the maximum amount of eggs in the minimum amount of time. They operate machines safely and they know how to cut down on unnecessary downtime and loss. With our training courses, you elevate your operators to higher levels of proficiency and realize the full potential of your equipment.

Moba's Technical Training Centers (TTC) are unique facilities at our headquarters in Barneveld, the Netherlands and at our US facility in Farmington Hills Michigan.

- We offer:
- State of the art training machines for egg handling and packaging.
 - Skilled trainers with years of experience in technical training.
 - Well balanced mix of theory and practice.
 - Extensive opportunity for practice and learning about machine setup, maintenance, and output performance.

To register for a training or for more information visit www.moba.net.

Field Service, Technical Support and Customer Care

On call 24/7 to provide the support you need to get the most out of your equipment.

Whether you are looking for help servicing, maintaining or repairing your equipment, you can count on the Moba worldwide service team to support your needs.

- Highly skilled and experienced technical staff.
- Professional and efficient machine installation.
- Rebuilds and repairs.
- Remote Helpdesk and assistance.
- Overall system evaluations.
- Recommended spare parts identification.
- Productivity assessments/improvements.
- Preventative Maintenance.
- Equipment safety evaluation/resale assessment.

Service Agreements

A Preventative Maintenance Service Agreement from Moba helps ensure that unplanned stops are reduced to a minimum.

We offer a wide variety of preventative maintenance and consulting services to help you optimize the performance of your equipment. This in turn maximizes your profitability.

- These include:
- Review of all Safety Systems on the Equipment.
 - Review of Spare Parts inventory and recommended stocking levels.
 - Review of Operating, Maintenance and Cleaning procedures.
 - Recommendations for Optimization.
 - Planning, Scheduling and Support of maintenance and rebuild activities.
 - Assistance with establishing PM plans in line with SQF requirements.
 - Review of System for Existing or Potential Performance Upgrades.

For various options contact the service department in your area.
